

# Nursing Assessment in LTC

## An education day for Nurses working in PCH / Transitional Care

This in-person education aims to equip nurses with enhanced assessment skills tailored for the intricacies of geriatric care. A key focus will be placed on understanding the nurses' role in geriatric assessment, fostering critical thinking skills in the context of geriatric health nuances and integrating theoretical knowledge into practical application.

- The objectives include:
- The nursing process to guide decision making
- Discussing case studies
- Non-urgent vs urgent collaboration with providers
- Situations necessitating primary 911
- Exploring how ACP status influences decision-making and care planning

Note: This session is **only** available to nurses working in LTC/Transitional settings

- 20 participants max per session

### Session Times: 0900-1530

Day	Dates	Location	Registration Deadline Date
Thurs	June 27 <sup>st</sup> 2024	Best Western Hotel Meeting Room: Dauphin, MB	June 20 <sup>th</sup> 2024
